Topic #23: Sprinkler Stop Valve

All Ladder and Heavy Rescue Companies will be issued 3 Sprinkler Stop Valves.

Description:

The Sprinkler Stop Valve is a universal sprinkler stopper device, which will stop the flow of water from an open sprinkler head without shutting down the entire system. According to the manufacture the device will fit recessed, concealed, sidewall and almost all pedant style fire sprinkler heads.

Operation:

Insert the rubber stopper into the opening of the sprinkler head and turn the handle until the water stops.
