Section #: 8		Topic #: 12

Title: 24 foot Ground Ladder Deployment

Task Level: Individual

Equipment Needed: Engine Company with 24 foot ladder
Safe location without traffic safety hazards

Maximum Time: 4 minutes

Instruction:

- Stage Ladder Company and assigned personnel at fire area. When personnel are ready, give signal and personnel are to exit apparatus.
- TIME STARTS WHEN PERSONNEL EXIT THE APPARATUS.
- Remove a 24-foot ladder and place at second story window at sill for entry/exit or RAT.
- Stop the time when ladder is raised in its designated location

Evaluation: Pass or Fail

Re-Testing: If individual fails to meet the required time limit or are stopped due to unsafe acts they will be given an additional opportunity to pass the evolution in one month.

Critical Criteria:

Failure to meet time limit
Failure to wear full PPE
Failure to properly set the ladder (improper climbing angle)
Dropping the ladder
Operating within 10 feet of overhead power lines
Unsafe acts as interpreted by the evaluator
