Title: High Rise Operations / 5" Alternative High Rise Water Supply
Drill Book Section 3, Topic #30

Task Level: Company

Equipment Needed: PPE, Engine Company, 5" hose & necessary adapters

Recommended Time: 5 minutes

Instruction:

- Stage Engine Company and assigned personnel away from the training tower or stairwell location.
- Properly remove 2 sections of 5" hose and stack 5" hose for 2-person deployments
- Team #1 – 2 fire fighters deploy 5" from entrance to 3rd floor
- Team #2 – walk behind Team #1 and connect to end of Team #1s hose on 3rd floor and deploy to 6th floor

Evaluation: Pass or Fail

Re-Testing: If individuals fail to meet the required time limit or are stopped due to unsafe acts they will be given an additional opportunity to pass the evolution in one month.

Critical Criteria:

Failure to meet time limit
Failure to wear full PPE
Failure to get hose laid out without major kinks
Failure to lay out hose for ease of deployment
