

	Cincinnati Fire Department Fire Training Supplement DRILL BOOK	SECTION #8 Minimum Company Standards
Date: January 2006	TOPIC TITLE: CPR, AED, Bag Valve Mask	Total # of Pages: 1
Section #: 8		Topic #: 16

Title: CPR, AED, and Bag-Valve Mask

Task Level: Individual and Company (4 personnel)

Equipment Needed: Maniken
AED
Bag-Valve Mask
Safe location without traffic safety hazards

Recommended Time: 3 minutes

Instruction:

- Stage personnel outside of room where maniken is located and start time when first contact is made with maniken
- Time ends when the patient has been evaluated, CPR initiated, BVM ventilation performed with proper airway adjuncts and an AED shock sequence performed.

Evaluation: Pass or Fail

Re-Testing: If companies fail to meet the required time limit or are stopped due to unsafe acts they will be given an additional opportunity to pass the evolution in one month.

Critical Criteria:

Failure to meet time limit
Failure to follow proper chain of events (ABC's)
Failure to open airway properly
Failure to deliver adequate breaths with the BVM
Failure to attach the AED properly and deliver shocks
Failure to clear the patient prior to delivering shocks

Each Person will perform in each role through simultaneous evaluations until each person has acted in each role.

Role 1: Team Leader (Initial Assessment and AED Usage)
Role 2: Perform Compression's
Role 3: Insert Oral Airway, Seal BVM Mask to face
Role 4: Squeeze the BVM mask
